FOR IMMEDIATE RELEASE

KYMCO Recalls Some Super-9 and Vitality Scooter Models

Inman, SC — The KYMCO Quality Control Department has determined that a defect exists on certain 2004 – 2005 Super-9 and Vitality models manufactured from February through July 2004. In accordance with the requirements of the National Traffic and Motor Vehicle Safety Act, the owners of these vehicles have been notified by mail to return them to their dealer for inspection and repair.

KYMCO Authorized Dealers will set up service appointments with those customers whose vehicles may be affected and complete the necessary inspection and repair. In addition, KYMCO USA dealers have suspended all retail sales of Super-9 and Vitality models until each unsold model has been inspected and repaired.

These scooters may have a casting flaw on the left hand side engine case at the base of the engine mounting point. On these models the engine is a functional part of the rear suspension, so the defect could result in breakage of the engine mount causing a rear suspension failure.

KYMCO USA apologizes for any inconvenience this recall may cause to its customers.

About KYMCO

With headquarters in Taiwan and distribution in 63 countries, KYMCO is a global leader in power-driven products, under the corporate slogan "Power Your Life." Five manufacturing plants in Asia use the latest technology for the engineering and production of reliable engine, chassis, and other components. KYMCO is committed to maximum customer satisfaction and constant innovation, making use of the most advanced CAD/CAE tools to provide the best technical service.

KYMCO scooters, motorcycles and ATVs are imported through KYMCO Motorsports USA in Inman, South Carolina, where the warehouse, management, and marketing facilities are located. An ever-expanding dealer network currently serves over 400 U.S. locations. Dealer inquiries are invited.
